22nd - 26th June 2009

Warsaw, Poland
22nd - 26th June 2009

CONFERENCE SCOPE:

III National Conference on Nanotechnology NANO'2009 is intended to provide a national forum for exchange of information and expertise, as well as for presentation of recent R&D results in rapidly developing and interdisciplinary field of nanotechnology. Like at the previous meetings, the main goal of the 2009 event is to gather together researchers, scholars and industry engineers who are, or who would like to be involved in basic and applied research activities, education, technology developments and commercial applications of nanoscience and nanotechnology.

MEETING FORMAT:

The conference will consist of plenary sessions and 3-4 parallel thematic sessions. Plenary sessions will include invited lectures, while thematic sessions will include also short communicates selected from received abstracts.

Other submitted communicates will be presented in a form of posters, during 2-3 poster sessions.

Official language of the conference is Polish. However, selected lectures will be presented in English.

TOPICS:

- Nanomaterials
- Nanoelectronics
- Nanophotonics
- Nanobiotechnology
- Nanomedicine
- Nanodevices, nanorobots
- Industrial applications of nanotechnology
- Molecular engineering
- Nanomechanics and nanotribology
- Characterization and manipulation in nanoscale
- Measurement nanodevices
- Terminology and standardization
- Nanotechnology in education
- Eitic, social and environmental aspects of nanotechnologii

ACCOMPANYING EVENT:

Exhibition of research instruments, vacuum equipment, nanomaterials, relevant technologies and commercial products.

VENUE:

The conference registration desk, as well as the scientific activities (lectures and poster sessions) and accompanying exhibitions will be held in the hall of the Old Library Building, located within the main campus of the University of Warsaw, at Krakowskie Przedmieście 26/28
